United States

Phone: (323) 860-5200

Los Angeles-based AIDS Healthcare Foundation (AHF),a nonprofit, tax-exempt 501(c)(3) organization, is a global organization providing cutting-edge medicine and advocacy to more than 420,000 patients in 36 countries. We are the largest provider of HIV/AIDS medical care in the U.S. A truly independent voice in our mission to rid the world of AIDS, AHF’s operating capital comes from our own self-created social enterprises. AHF Pharmacies, thrift stores, healthcare contracts and other strategic partnerships generate funding that helps AHF provide medical and advocacy services across the globe. Generating and defining new, innovative ways of treatment, prevention and advocacy is the hallmark of our success. We are currently leading a mass testing initiative to identify and treat the 25 million people who don’t know they are infected. By advocating big goals – aiming to see an unprecedented 1 billion people tested each year – AHF hopes to eliminate older, more time-consuming methods. Since 1987, AHF has cared for thousands of people living with HIV and AIDS worldwide. As we create and implement unparalleled programs in new communities in the U.S. and abroad, we expand delivery of healthcare and influence over policy with the sole aim of saving more lives.
