WHO WE ARE
We are a volunteer By-Positives Peer Health Navigator Organization. Our ultimate goal is to improve the lives of disenfranchised individuals living with HIV/AIDS, to assist them in overcome their barriers in obtaining health care, help them navigate and to stay engaged in the healthcare system, decrease stigma surrounding those with HIV/AIDS, and create awareness about HIV prevention and the positive contributions made by people living with HIV through new and innovative ways.

OUR MISSION
Through services, programs, and resources rooted in and employed with integrity, compassion, and excellence, ActionRED is dedicated in improving the quality of life in minority communities. When we encounter the needs of those infected and affected by HIV/AIDS, We Take Action. BEING AN AGENT OF CHANGE
Our name comes from the idea of bringing our community together by working to eradicate HIV/AIDS through Resources, Education, and understanding Diversity (RED). Then by taking Action to help those infected and affected by this disease.

We all have a responsibility to take Action, to know about Resources, getting tested, and becoming Educated about the facts regarding HIV, all the while addressing the Diversity of needs in all communities here in Las Vegas as partof a National effort to eradicate this disease from our community.
